

TrustLens — Verification Report

User: Gunj bazaz
Scan date: 2026-08-01 15:19:23.928929
Scan type: Image / QR / Reverse

Trust Score	90 / 100
Risk Level	LOW
Status	verified

Analysis Summary

Image analysis: OCR, metadata, sharpness, compression, tampering and duplicate checks completed.

Reasons for this score

- [OK] **Valid image verified** — JPEG image, 720x1600 px, 72 KB on disk.
- [OK] **Exposure looks normal** — Mean brightness 168/255.
- [OK] **Sharpness is good** — Laplacian variance 747.5 - image is in focus.
- [OK] **Low compression artifacts** — PSNR 50.5 dB between original and re-encode.
- [/] **Screenshot-like pattern** (impact: -10 points) — High text-edge density with low color diversity - typical of screenshots.
- [OK] **No tampering detected via ELA** — Re-compression error is uniform (ELA 0.2).
- [i] **Perceptual fingerprint** — dHash 0100000000000000000010001...
- [OK] **OCR extraction succeeded** — Extracted 426 characters with mean confidence 0.75.

Suggestions

- No significant red flags - but always verify the sender through an official channel before sharing sensitive data.
